

Arcview extension file agwa1_5.avx

Posted by sajjana - 2009/06/16 06:22

Hye

Take my best regards.

I am a PhD student in CQuniversity, Australia. I want to do research on sediment transport/ soil erosion.

From the internet I have downloaded the package AGWA_1.5. But unfortunately when I tried to install it I failed cause it needs the Arcview extension file agwa1_5.avx (manual page 18) which I could not find in the AGWA_1.5_Package folder. I will be happy if you kindly send me the extension file or inform me how to get the mentioned file.

With Best Regards

=====

Hi,

The AGWA 1.5 extension is available from the Downloads page.

Got to AGWA 1.x, then Extensions, to download the AGWA 1.5 beta-20090109 zip file.
